

Jie Hou

Assistant Professor
 Department of Computer Science
 Program of Bioinformatics and Computational Biology
 School of Science & Engineering
 Saint Louis University
 St. Louis, MO 63103-2007
 Phone: 573-864-2105
 Email: jhou4@slu.edu
 Website: <http://cs.slu.edu/~hou>

I. Basic Information

Education

Ph.D. in Computer Science, University of Missouri-Columbia, Columbia, MO, USA July 2019
 Dissertation title: *Improving protein structure prediction by deep learning and computational optimization*
 Ph.D. advisor: Prof. Jianlin Cheng
M.A. in Statistics, University of Missouri-Columbia, Columbia, MO, USA May 2014
B.S. in Mathematics, Shanghai Maritime University, Shanghai, China July 2012

Experience

Assistant Professor, Department of Computer Science August 2019–Present
 Affiliated Faculty, Program of Bioinformatics and Computational Biology
 Saint Louis University, St. Louis, MO, USA
Assistant Professor, Department of Health and Clinical Outcomes Research (HCOR) May 2024–Present
 School of Medicine (Secondary Appointment)
 Saint Louis University, St. Louis, MO, USA
Research Assistant, Department of Computer Science August 2014–July 2019
 University of Missouri, Columbia, MO, USA

Honors and Awards

- 2024, Received *School of Science & Engineering Faculty and Staff Excellence in Teaching Award*, Saint Louis University
- 2019, Received *Outstanding PhD Student Award in the College of Engineering*, University of Missouri

II. Research

Research Interests

General Areas: Machine learning, data mining, deep learning, bioinformatics

Specific Areas: Protein/RNA structure prediction, protein quality assessment, next-generation sequencing data analysis

Funding

Awarded Grants

1. **NIH/NIGMS, R15 (PI)**, “*Improving Artificial Intelligence Readiness of RNA Motif Data for Structure Analysis and Modeling*,” 09/2024 – 08/2027, Total amount: \$467,334.

- Major Goals: Our goal is to enhance computational RNA structural analysis by integrating artificial intelligence (AI) and developing a comprehensive RNA data generation framework tailored for AI applications.
2. **NIH/NHLBI, R01 (co-I)**, “*Pharmacogenetic Refinement of the Warfarin Dose Using Machine Learning*,” 07/2024 – 06/2028, Total amount: \$1,554,645, my share: \$210,303. PI - Dr. Gage Brian.
 - Major Goals: Our goal is to improve the safety and effectiveness of anticoagulant therapy. We will use penalized regression and machine learning to develop algorithms to guide warfarin dosing. To facilitate use of the algorithms, we will integrate them into a popular electronic health record (Epic) and make them publicly available at our non-profit web application, www.WarfarinDosing.org
 - Scope of work: Major role in developing advanced machine learning framework to quantify the warfarin dose-response relationship in long-term period; Algorithm validation and deployment via their electronic medical record, Epic.
 - Efforts: Commit two summer months per year in research activities and student supervision in academic terms.
 3. **SLU Scholarly Undergraduate Research Grants and Experiences (SURGE) Program, Saint Louis University (PI)**, “*Automated RNA Motif Structure Parsing Framework for AI/ML applications*”, 08/2024 – 12/2024. Total amount: \$2,000.
 4. **President’s Research Funds (PRF), Saint Louis University (co-PI)**, “*Privacy Analysis of Distributed Learning with Defensive Measures*”, 05/2022–04/2023. Total amount: \$25,000. PI - Dr. Reza Tourani
 5. **WUSTL Institute of Clinical and Translational Sciences (co-PI)**, “*Pharmacogenetic Refinement of the Warfarin Dose Using Machine Learning*”, 03/2022–02/2023, Total amount: \$50,000, my share: \$15,000. PI - Dr. Brian Gage
 6. **President’s Research Funds (PRF), Saint Louis University (Sole PI)**, “*Advancing Protein Structure Prediction using Small-angle X-ray Scattering data*”. Total amount: \$15,000. 05/2021–11/2022.

Publications

Statistics of Publication Impact

- **50 Journal Articles Published in 22 International Journals**
- **Total Journal Impact Factors: +175**
- **+2800 Citations** (estimation according to Google Scholar as of July, 2024: https://scholar.google.com/citations?user=RSC9b_wAAAAJ&hl=en&oi=ao)
- **H-Index: 25** (25 publications each having a citation number ≥ 25)
- **H-Index (since 2019): 24** (24 publications each having a citation number ≥ 24 since 2019)
- **i10-Index: 43** (43 publications each having ≥ 10 citations)
- **i10-Index (since 2019): 42** (42 publications each having ≥ 10 citations since 2019)
- **5 Conference Papers, 13 Conference Abstracts/Posters**
- **2 Book Chapters**

(Underscore - Hou as first-author/co-author, * - Hou as corresponding author)

7. Hou, J, Wu, T., and Cheng, J. (2018d). Improving protein tertiary structure prediction by deep learning, contact prediction and domain recognition. *The 13th Critical Assessment of Techniques for Protein Structure Prediction (CASP13)*, Riviera Maya, Mexico, 2018
8. Hou, J, Adhikari, B., Cao, R., and Cheng, J. (2016b). Saxs-assisted tertiary structure prediction by multicom. *The 12th Critical Assessment of Techniques for Protein Structure Prediction (CASP12)*, Gaeta, Italy, 2016
9. Hou, J, Adhikari, B., Cao, R., Crivelli, S. N., and Cheng, J. (2016c). Tertiary structure prediction by wfall-cheng. *The 12th Critical Assessment of Techniques for Protein Structure Prediction (CASP12)*, Gaeta, Italy, 2016
10. Hou, J, Li, J., Adhikari, B., and Cheng, J. (2016d). Improved integration of template-based and template-free model sampling methods for protein structure prediction. *The 12th Critical Assessment of Techniques for Protein Structure Prediction (CASP12)*, Gaeta, Italy, 2016

11. Hou, J, Li, J., and Cheng, J. (2016e). Protein tertiary structure prediction by multicom-cluster server. *The 12th Critical Assessment of Techniques for Protein Structure Prediction (CASP12)*, Gaeta, Italy, 2016
12. Li, J., Hou, J, Sun, L., Wilkins, J. M., Lu, Y., Niederhuth, C. E., Merideth, B. R., Mawhinney, T. P., Mossine, V. V., Greenlief, C. M., et al. (2015a). From gigabyte to kilobyte: A bioinformatics protocol for mining large rna-seq. *ACM-BCB*, Atlanta, GA, USA, 2015
13. Jo, T., Hou, J, Eickholt, J., and Cheng, J. (2015a). Deep learning network for protein fold recognition. *The Mid-South Computational Biology and Bioinformatics Conference (MCBIOS)*, Little Rock, AR, USA, 2015

Selected Talks

1. **Invited talk** at *Barnes-Jewish Hospital, Saint Louis*, 11/2023
Talk title: "Machine Learning applications in healthcare"
2. **Short Research talk** at *SLU, 2023 AI for Medicine conference*, 10/2023
Talk title: "AI and big data analytics in healthcare data"
3. **Department Colloquium talk** at *SLU Computer Science Department Colloquium*, 09/2023
Talk title: "The applications of deep learning techniques in protein structure prediction"
4. **Paper presentation at 2023 SIGKDD conference, BioKDD workshop**, Long Beach, 08/2023
Talk title: "AnglesRefine: refinement of 3D protein structures using Transformer based on torsion angles"
5. **Department Colloquium talk** at *SLU Computer Science Department Colloquium*, 10/2022
Talk title: "The applications of deep learning techniques in protein structure prediction"
6. **Poster presentation at 2022 ISMB conference**, Madison, 07/2022
Poster title: "A deep graph learning approach to rank protein-protein interaction structures."
7. **Invited talk** in *Data Analysis & Intelligent Systems (DAIS) group*, University of Washington, Bothell, WA, 02/2021,
Talk title: "Integration of cryo-EM and inter-residue distance prediction from protein folding",
8. **Department Colloquium talk** in *Parks College Colloquium*, Saint Louis University, St. Louis, MO, US, 09/2020.
Talk title: "DeepRank2: Utilizing computer vision techniques to improve protein model quality assessment using inter-residue distance prediction and deep learning"
9. **Short Research talk** in *Department of Biological Sciences Research Retreat*, Saint Louis University, St. Louis, MO, US, 09/2019
Talk title: "Protein Structure Prediction using Deep Learning and Computational Optimization"
10. **Poster presentation at The 13th Critical Assessment of Techniques for Protein Structure Prediction (CASP13)**, Riviera Maya, Mexico, Dec 2018
Poster title: "CASP13 Tertiary Structure Prediction by the MULTICOM Human Group".
11. **Invited talk at The 13th Critical Assessment of Techniques for Protein Structure Prediction (CASP13)**, Riviera Maya, Mexico. Dec 2018
Talk title: "Large-scale integration of protein model quality assessment using deep learning and contact predictions"
12. **Paper presentation at 2015 MidSouth Computational Biology and Bioinformatics Society (MCBIOS)**, Little Rock, Arkansas, US, March 2015
Talk title: "Improving protein fold recognition by deep learning networks"

III. Teaching and Advising

Teaching

Statistics of Teaching Impact

- **Taught 3 Different Courses** in Machine Learning, Algorithms in Computational Biology, Introduction to Computer Science, and **2 General Research Courses**
- **Co-taught 1 course** in Bioinformatics Colloquium
- **Average Teaching Evaluation Score from 2019 to 2024:**
 - **3.93/4.0** - CSCI 1020: Introduction to Computer Science: Bioinformatics
 - **3.90/4.0 (3.97/4.0 since 2022)** - CSCI 4750/5750: Introduction to Machine Learning
 - **3.98/4.0** - BCB 5300: Algorithms in Computational Biology

Courses Designed and Taught (5)

1. CSCI 1020: Introduction to Computer Science: Bioinformatics (Fall 2019, Spring 2020, Fall 2020, Spring 2021, Spring 2023)
2. CSCI 4750/5750: Introduction to Machine Learning (Spring 2020, Fall 2020, Fall 2021, Spring 2022, Fall 2022, Spring 2023, Fall 2023, Spring 2024)
3. BCB 5300: Algorithms in Computational Biology (Fall 2021, Fall 2022, Fall 2023)
4. CSCI 5970: Research Topics (Summer 2021, Spring 2022, Summer 2022, Fall 2022, Spring 2023)
5. CSCI 5990: Thesis Research (Spring 2021, Fall 2022, Spring 2023)

Courses Co-Taught (1)

1. BCB 5810: Bioinformatics Colloquium (Fall 2020)

Advising

Statistics of Advising Impact

- **Advised 2 graduate students as chairperson of master's written thesis**
- **Advised 8 master's students as supervisor in research projects**
- **Co-supervised 2 PhD students**
- **Co-advised 5 master's students in University of Washington-Bothell**
- **Advised 3 undergraduate students, 2 high school students**
- **Mentored 33 CS undergraduates and BCB graduate students in course selection**

Current Lab Members

- Vinay Chaudhari, MS-AI SLU (09/2023 - Present); Project: Development of AI-driven RNA motif data analysis framework

Prior SLU Graduate Students Advising as Thesis Chair

1. Omar AI Akkad; MS-AI SLU (01/2022 - 05/2023) Current: PhD program of GIS at Saint Louis University

2. Rahul Chauhan; SLU (09/2019-05/2021); Publication: [Rahbar et al. (2022)]
Master thesis: A deep learning approach to estimate protein model quality using structural constraints from multiple sequence alignments.
Current: Software Development Engineer II at GoDaddy

Prior SLU Graduate Students Advising as Project Supervisor

1. Charlz Nithin Jerold; MS-BCB SLU (09/2022 - 05/2024). Current: full-time Bioinformatics Research Analyst at Washington University at St. Louis
2. Nexhi Sula (Female), MS-AI SLU (01/2023 - 05/2024). Next step: will join PhD program of Computer Science at SLU in Fall 2024
3. Mahdi Rahbar; MS-AI SLU (09/2021 - 05/2023). Publication: [Rahbar et al. (2022)]
4. Chandana Enugala (Female), MS-AI SLU (06/2022 - 07/2023)
5. Varun Julakanti; MS-CS SLU (Spring 2023)
6. Pankil Shah; MS-CS SLU (01/2021-05/2022)
7. Yu Zhang (Female), MS-BCB SLU (01/2021- 05/2022). Current: full-time Bioinformatician at Washington University at St. Louis
8. Aasritha Nallapu (Female), MS-BCB SLU (Spring 2022). Current: full-time Bioinformatician at Washington University at St. Louis

Graduate Student Co-Advising as Thesis / Projects / Dissertation Chair (including co-supervision of 2 PhD students and 5 MS students in total at University of Washington - Bothell)

1. Tong Si (Female); PhD student in the Department of Mathematics at SLU. PhD research co-advisor (09/2022 - Present).
Publication: [Si et al. (2023)]
2. Noor Al-Hammadi (Female); PhD student in the Department of Health & Clinical Outcomes Research at SLU. PhD research co-advisor (10/2020 - 08/2022). Current: Assistant Professor at SLU
3. Esha Rajesh Gavali; Graduate student in the Department of Computer Science at University of Washington Bothell. Committee Chair: Dong Si, Ph.D (02/2023 - Present).
4. Chloe Ma; Graduate student in the Department of Computer Science at University of Washington. Committee Chair: Dong Si, Ph.D (05/2023 - 05/2024).
5. Jason Chen; Graduate student in the Department of Computer Science at University of Washington. Committee Chair: Dong Si, Ph.D (02/2021 - 12/2023).
Publication: [Chen et al. (2024)]
6. Andrew Hitoshi Nakamura; Graduate student in the Department of Computer Science at University of Washington. Committee Chair: Dong Si, Ph.D (07/2021 - 08/2022).
Publication: [Nakamura et al. (2023)]
7. Nathan Ranno; Graduate student in the Department of Computer Science at University of Washington. Committee Chair: Dong Si, Ph.D (02/2020 - 06/2021).

Prior SLU Undergraduate Students Advising as Project Supervisor

1. Bhanu Pujari; BS Neuroscience SLU (FL2021 - SP2024). Next step: Join SLU Medical School (SOM) to start graduate study in Fall 2024
2. Daniel Mao; BS Computer Science (SP2022 - SP2023). Current: Software Developer at Saint Louis University

3. Ciri Chandana Pocha (Female); BS Neuroscience SLU (FL2020 - FL2021); Publication: 1 published journal [Hippe et al. (2022)]

High School Intern / Student Advising (2 students)

1. 10/2023 - Present, Grace Fu; Parkway south high school, Manchester, Missouri, United States.
2. 06/2022-08/2022, Gabriel Schwarz; Highland High School, Missouri, United States.

Academic mentor (33 students in total)

- Provide active mentorship to 33 CS undergraduates and BCB graduate students since 2019

IV. Services

Statistics of Main Internal and External Services

- Served on the degree committee of 17 graduate students
- Served on +8 various committees of department, college, and university
- Collaborating/Consulting +10 research groups on bioinformatics, machine learning, artificial intelligence research at SLU
- Served as US Department of Energy (DOE) panelist and grant application reviewer 1 time
- Associate Editor of Protein Bioinformatics (specialty section of Frontiers in Bioinformatics)
- Served as handling editor for journals such as Protein Bioinformatics, and IEEE/ACM Transactions on Computational Biology and Bioinformatics
- Membership with AAAS and ACM
- Reviewed papers for 16 journals
- Co-chaired BioKDD workshop in KDD 2023 conference
- Served on program committees of conferences and workshops 2 times

Department Services

Graduate Thesis / Dissertation Committees at SLU (11 students): Jinhui Li (current), Cory Gardner (current), Tong Si (Female, current), Nexhi Sula (Female, SP2024), Wazma Ali (Female, SP2024), Muhammad Aqeel (FL2024), Andrew Beiler (FL2023), Matt Dreyer (SU2023), Mahdi Rahbar (SP2023), Noor Al-Hammadi (Female, SU2022), Princewill Okorie (SP2022)

Graduate Thesis / Capstone Committees at University of Washington-Bothell (6 students): Esha Rajesh Gavali (Female, current), Saurav Jayakumar (current), Chloe Ma (Female, SP2024), Jason Chen (FL2023), Andrew Hitoshi Nakamura (SU2022), Nathan Ranno (SU2021)

Research Collaboration Services in the CS Department: Collaborating with many faculty in the computer science department on various research projects, including published work Kosfeld et al. (2020), Dougherty et al. (2023).

Department Committee Services

1. 2024, PhD qualifying exam committee of Cory Gardner, Department of Computer Science, Saint Louis University
2. 2024, Serve on the Ad-hoc Bioinformatics and Computational Biology Academic Program Review Committee, Saint Louis University
3. 2023 - Present, Technology Committee, Department of Computer Science, Saint Louis University

4. 2022-2023, Supervisor for Computer Science Capstone projects, Department of Computer Science, Saint Louis University
5. 2022 - Present, Co-organizer of MS-BCB program orientation, Saint Louis University
6. 2022 - Present, Department representative in Curriculum Committee of School of Science and Engineering (SSE)
7. 2022, Faculty representative in Academic fair, Department of Computer Science, Saint Louis University
8. 2021-2022, Committee member in department undergraduate curriculum/affairs committee, Department of Computer Science, Saint Louis University
9. 2020-2021, Supervisor for Computer Science Capstone projects, Department of Computer Science, Saint Louis University
10. 2020 - Present, Serve as an academic advisor to multiple MS-BCB graduate students, Department of Computer Science, Saint Louis University.
11. 2020, Co-organizer of weekly BCB colloquium seminar series, Department of Computer Science, Saint Louis University
12. 2019 - Present, Serve as an academic mentor to multiple CS undergraduate students, Department of Computer Science, Saint Louis University.
13. 2019 - Present, Provided reference letters for BCB/CS/AI students in support of internships, job openings, and PhD applications, Department of Computer Science, Saint Louis University
14. 2019 - Present, Participating in almost all Computer Science (CS) faculty meetings

College Services

1. 2023 - Present, Chair of SSE Curriculum Committee, School of Science and Engineering (SSE), Saint Louis University
2. 2023 - Present, Participating in faculty meetings and activities, School of Science and Engineering (SSE), Saint Louis University

University Services

Affiliation Services

Affiliated with *SLU Master of Bioinformatics and Computational Biology (BCB) program* (since 2019), *SLU AHEAD Institute* (since 2024). Participating in meetings, symposiums and external / internal seminars organized by these two organizations.

Research Collaboration and Consulting Services at Saint Louis University (+5 groups / PIs)

1. Collaboration with Dr. Longping Victor Tse in Department of Molecular Microbiology & Immunology to develop computational methods for identification of protein epitope structure
2. Collaboration with Dr. Brent Znosko in Department of Chemistry to develop computational framework for RNA motif analysis
3. Collaboration with Dr. Dapeng Zhang in Department of Biology to develop bioinformatics methods for Genome-wide discovery and analysis of bacterial toxin systems
4. Collaboration with Dr. Haijun Gong in Department of Mathematics to develop deep learning algorithms for scRNA-seq data analysis.

5. Collaboration with Dr. Noor Al-Hammadi in Department of Health & Clinical Outcomes Research to develop machine learning algorithms for warfarin dosing prediction.
6. Collaboration with Drs. Chihou Lei (Aerospace and Mechanical Engineering), Yan Gai (Biomedical Engineering), Benjamin Hutz (Mathematics) on a variety of research topics and grant writing.

Other University Services

1. 2024, Served as a PhD committee member for Jinhui Li who is a PhD student in the Department of Biology, Saint Louis University
2. 2023 - Present, Served as a PhD committee member for Tong Si who is a PhD student in the Department of Mathematics, Saint Louis University
3. 2022, Moderator in SLU Sigma Xi Symposium, Saint Louis University
4. 2022, Judge in SLU GSA Research Symposium, Saint Louis University
5. 2020 - 2022, Serve as a PhD committee member for Noor Al-Hammadi who is a PhD student in the Department of Health Outcomes Research
6. 2020, Served as a PhD committee member for Sourav Bhadra who is a PhD student in the Department of Environmental Science and GIS

Regional, National and International Services

Membership

AAAS (since 2020), ACM (since 2019)

Journal Paper Reviewing (16 International Journals)

Nature Computational Science, Journal of Biotechnology, IEEE Transactions on Pattern Analysis and Machine Intelligence, Frontiers in Bioinformatics, Briefings in Bioinformatics, Bioinformatics, BMC Supplements, Computational and Structural Biotechnology, Nature Scientific Report, Plos One, Chinese Journal of Electronics, Journal of Digital Discovery, Journal of Neural Networks, Journal of Entropy, Journal of Applied Sciences, Database: the Journal of Biological Databases and Curation.

Workshop co-chair, Committee Member, Editorial Board, Grant Review, and Other Services

- 2024, Program Committee, IEEE International Conference on Bioinformatics and Biomedicine (BIBM)
- 2023-2024, Co-editor, IEEE/ACM Transactions on Computational Biology and Bioinformatics
- 2023, Handling editor, Protein Bioinformatics
- 2023, Workshop co-chair: The 22nd International Workshop on Data Mining in Bioinformatics (BIOKDD), Long Beach, CA, USA, Aug. 2023.
- 2023, Panel Reviewer: US Department of Energy (DOE) Biological & Environmental Research (BER).
- 2022–Present, Associate Editor: Journal of Frontiers in Bioinformatics.
- 2022, Judge in DataFest competition at Pacific Lutheran University
